

Brief instructions for starting a Netviewer session

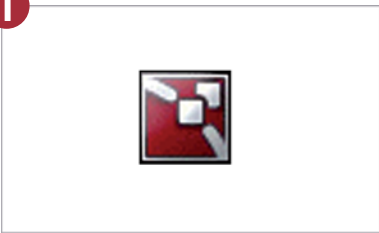

It only takes a few seconds to establish a secure connection to a remote computer over the Internet.

You will need the following for a Netviewer session:

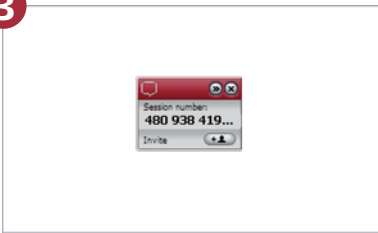

- **Netviewer Support Consultant program**
Download at www.netviewer.com
- **Netviewer Support Participant program**
Your session partners obtain this free program at www.netviewer.com
- **Internet access** on the Consultant and Participant sides

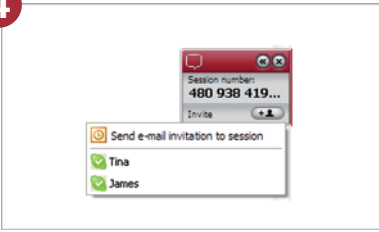

Establishing a Netviewer session:

- 

Start the Consultant program.
- 

In the start dialog, click on **basic mode** or **expert mode**.
- 

A session number will appear.
- 

Give this session number to the participant, i.e. via e-mail, Skype or telephone.
- 

The participant starts the Participant program.
- 

The participant enters the session number and clicks on **Connect**. The Netviewer session starts.

Upgrade for commercial users starting at **29,90 €**
Available at the Netviewer Shop: shop.netviewer.com
