Some GREAT NEWS!!!

TVS Motor

Ziac's tremendously popular module **Wheelz Alerts** has been selected by **TVS Motor Co, Hosur** for implementation in all their dealerships through out India.

Official confirmation of this order was received by Ziac yesterday.

We have been selected by TVS over various other different competitors. Our product Wheelz Alerts and ZiacSMS was the best among them for its features and simplicity of use.

Wheelz Alerts will be implemented along with their existing DMS as SMS Alerts. Our product will be recognized at the global level now. TVS has dealerships in Indonesia as well.

Think About It

A blind man had been waiting a while at a busy road for someone to offer to guide him across, when he felt a tap on his shoulder. "Excuse me," said the taper, "I'm blind - would you mind guiding me across the road?"

The first blind man took the arm of the second blind man, and they both crossed the road. Apparently this is a true story. The first blind man was the jazz pianist George Shearing. He commented on this incidence "What could I do? I took him across and it was the biggest thrill of my life."Moral of the story:There are times when we think we cannot do something and so do not stretch or take a risk. Being forced to stretch and take a risk can often help us to reduce our dependencies (on others, or our own personal safety mechanisms), and to discover new excitement and capabilities.
